

# RETAIN RECEIPTS FROM WATER HEATER PURCHASES

**Kosciusko REMC**

## Water Heater Program Agreement

Name \_\_\_\_\_ Account # \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_

Unit installed at (address): \_\_\_\_\_

In consideration for KREMC giving a rebate (credit to bill) for the purchase and installation of an energy efficient electric water heater, the undersigned residential (farm & home rate) member agrees to abide by all the terms and conditions of this agreement.

1. Member agrees to purchase a new (purchased within six months -of inspection date) 50 gallon or larger electric water heater. Installation is the responsibility of the member, and it is also the responsibility of the member to initiate the rebate procedure with KREMC. All repairs and service are the responsibility of the member.
2. The unit must be installed on KREMC lines to be eligible for a rebate. KREMC will inspect the unit after installation. **A rebate credit will not be issued until inspection is complete. You must retain your receipt for the water heater(s) for inspection purposes.**
3. No water heater fueled by any source other than electricity is permitted in the home's water heating system. Member should consult with the KREMC energy advisor if there are compliance issues.
4. In exchange for the rebate credit the member will receive from KREMC, the member agrees to allow KREMC to install a load management switch on the water heater at a future time, if warranted. Failure to do so will result in the rebate being rescinded, and a charge for the rebate will be made on the next billing statement. If a new water heater replaces one that had a load management switch installed on it, member agrees to notify KREMC when the new water heater is installed so that the switch can be transferred to the new water heater.
